

*Please make a note  
of our new address!*

## ***FLORIDA SOUND ENGINEERING CO., INC.***

**5570 Florida Mining Blvd., Suite 608  
Jacksonville, Florida 32257**

The Florida Sound family is happy to announce our move to a brand new facility, effective May 1, 2009.

After 10 years in our former location, we were cramped for warehouse and office space. The new facility will more than double our square footage and will provide a much more conducive place for our employees, vendors, and customers to gather. So we are defi-

nately excited about having some more 'breathing room.'

Although our address has changed, our commitment to providing the best design, installation, and service for sound and video systems has not changed. It is as strong as ever.

Please come visit us in person or on-line at [floridasound.com](http://floridasound.com).

Professional  
Sound and  
Video Systems

"How Shall They  
Hear Without a  
Great  
Sound System?"
